

BOTTLED WATER, PUBLIC WATER AND WELL WATER CONSIDERATIONS

Water Source	Bottled Water ¹	Public Water ²
Annual User Water Cost 2026	\$1,162.53	\$1,117.73
Quarterly User Water Cost 2026	\$290.63	\$279.43

Based on average water usage by a three bedroom residence

¹Only includes drinking water costs NOT utilities that would be fed by a private well (laundry, dishwasher, etc.)

²Estimated user costs without the County subsidy in 2026

Well Water

The estimated cost of drilling a new well and plumbing is up to \$15,000.

Well water is not free and maintaining your own system can be a hassle.

PUBLIC WATER IS CLEAN, RELIABLE AND SUSTAINABLE
